**DEPARTMENT OF COMPUTER APPLICATIONS – SHIFT I  
ADD-ON COURSE ON PYTHON PROGRAMMING**

**REPORT OF THE COORDINATOR**

Department of Computer Applications- shift I in association with ALB Computer Training Institute has taken an initiative to organize an add-on course on Python Programming for the welfare of MarGregorios College students to equip their programming skills. Initially a circular has been sent to all the students of shift I to enroll their names for the course. Around 40 students from various department of shift-I shown interest towards course and 30 students have registered for the course. Hands on training was provided in the Computer Lab for all the course hours. Mr.Prabu and his team from ALB Computer Training Institute taken the classes for the students.

Course Duration: 48 Hours

Commencement Date: 13.08.2018

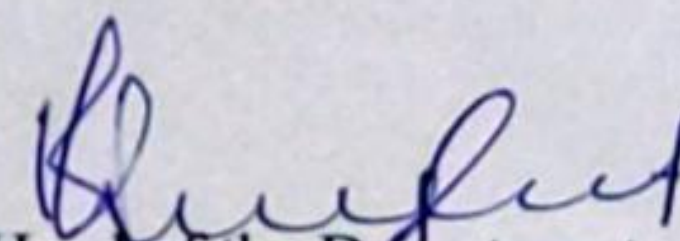

Number of Student Attended :30

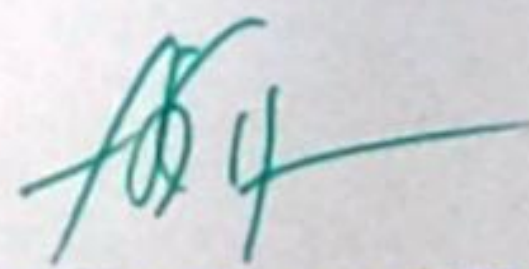

Date of Exam: 14<sup>th</sup> September 2018

Number of Student Passed: 30

**Feedback Analysis:** The feedback was collected and analyzed by the Coordinator. In general, positive feedback was received, as all the students expressed satisfaction with respect to content and design of the curriculum and teaching. Students wanted more addon course to equip their programming skills to fulfill the gap between theory and practical knowledge.

ADD ON COURSE ON TALLY

2018-2019

**Report of the Coordinator**

Department of Commerce - shift I in association with Vettri Education has taken an initiative to organize an add-on course on tally essential for the welfare of Mar Gregorios College students to equip their skills. Initially a circular has been sent to all the students of shift I to enroll their names for the course. Around 80 students from various department of shift-I shown interest towards course and 70 students have registered for the course. Hands on training was provided in the Computer Lab for all the course hours.

Course Duration: 60 Hours.

Start Date: 3.01.19

Number of Student Attended :69

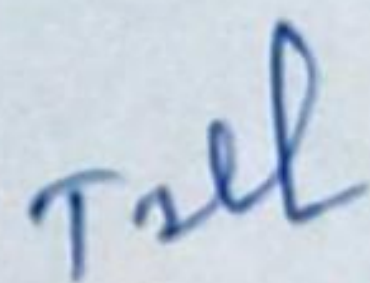

Date of Exam: 18<sup>th</sup> March, 2019

Number of Student Passed: 68

**Feedback Analysis:** The feedback was collected and analyzed by the Coordinator. In general, positive feedback was received, as all the students expressed satisfaction with respect to content and design of the curriculum and teaching. Students were highly benefited with an add on course.

**"ARDUNIO"**

As we know Arduino is an open-source platform used for building electronics projects. Arduino consists of both a physical programmable circuit board (microcontroller) and a piece of software or IDE (Integrated Development Environment) that runs on your computer, used to write and upload computer code to the physical board. The duration of the course "ARDUNIO" was 42 hours from 25/02/2019 to 05/03/2019. Totally 26 students registered for this course and 25 were regular. In this instructor-level, live training, participants learnt how to program the Arduino for real-world usage, such as to control lights, motors and motion detection sensors. This training would induce the participants to Program Arduino to control lights, motors, and other devices. It also includes understanding Arduino's architecture, including inputs and connectors for add-on devices. Interfacing components such as LCDs, accelerometers, gyroscopes, and GPS trackers to extend Arduino's functionality. It also includes understanding the various concepts in programming languages, from C to drag-and-drop languages. The students also learned to Test and debug the Arduino to solve real world problems.

**Feedback Analysis:** From this course, students were able to understand Arduino's architecture, including inputs and connectors for add-on devices. They also got an idea about Artificial Intelligence & its importance in the real world.

DATE OF EXAMINATION: 05/03/2019.

**ADD-ON PROGRAM ON ANDROID APP DEVELOPMENT**

**Report of the Coordinator**

Department of computer applications has taken an initiative to organize a Add on program on Android App Development for the interested students of Mar Gregorios college. Around 29 students from the various department of Shift-I have registered for the course.

At the end of the course simple project to develop an android app has been given to all the students. All the students actively done the project. Then an assesment for the program has been conducted in the computer lab on 3<sup>rd</sup> october 2019. Students those who qualified the assesment got the certificate.

Course Duration:48 Hrs

Started Date:22<sup>nd</sup> July 2019

Number of Student Attend:28

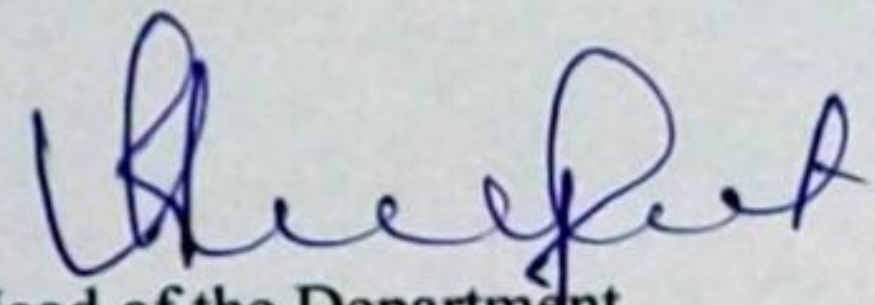

Date of Exam: 3<sup>th</sup> October 2019

Number of Student Passed:28

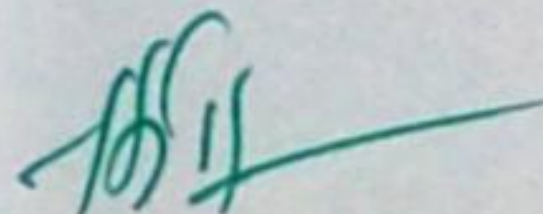

**Feedback Analysis:** Feedback was collected and analysed by the coordinator. Feedback received from the students expressed satisfaction with respect to web page design of the curriculum and teaching. Student demand more courses on recent techniques used in IT field and wanted more add-on courses. The topics and assignments were at an appropriate level of difficulty.

ADD- ON COURSE **REPORT ON PYTHON**

**Report of the Coordinator**

Department of Computer Application, shift II organized Add-on course on "PYTHON" conducted by the Resource person Mr.S.Kalidas, Director, IF AND FOR ENDEAVOURS. The course duration was 40hrs. The course commenced on 21<sup>st</sup> August 2019 and Mr.S.Ranganathan was the Teacher Coordinator. The course fee was Rs.2500 and Around 21 students enrolled and completed the course. Aptitude Exam was conducted at the end of the course to test their learning skills and Certificate was issued to all the 21 students who cleared the examination.

Course Name: PYTHON

Course Duration: 40hrs/ 2 hr per day

Commencement date: 21/08/19

Date of Exam:15/10/2019

Course Schedule: Forenoon/11.15am to 1.15 am

No.of students attended: 21

No.of students passed:21

**Feedback Analysis:**

Feedback was received by the coordinator and students expressed positively to the course conducted. All the students actively participated in the course. As Python was a upcoming programming language, they were very much eager to use their knowledge in the Information Technology. They also thanked for the course which has a wide scope of placement opportunities and ensured that this course would definitely help them.

**“PCB LAYOUT DESIGN AND FABRICATION”**

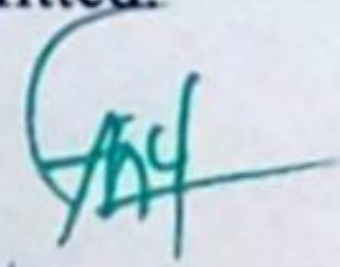

As we know PCB fabrication is the process or procedure that transforms a circuit board design into a physical structure based upon the specifications provided in the design package. Virtually every electronic product is constructed with one or more PCBS. Therefore to give awareness about PCBS a course for seven days on PCB layout design and Fabrication was conducted by the Department of Electronics and Communication Science from 9/12/19 to 15/12/19 for III Year ECS Students. Totally 26 students enrolled for the course, all the students successfully completed the course. The course was conducted for 42 hours duration. The Sessions was handled by Mr.S .Prakash M.E. Technical Head, Smart technologies.

The students were given two assignments and one test, based on which certificates were issued to all students.

**Feedback Analysis:** The students learned to design PCB. As the PCB boards are highly in demand in the field of Consumer Electronics, Automization etc the students were highly benefitted.

ADDON COURSE ON BUSINESS ADMINISTRATION

**Report of the Coordinator**

Department of Business Administration - shift I has organized 5 days Online Add on course for the other college students and the research scholars. The major purpose of this course is to develop research knowledge and to enrich with the concept of Research Methodology. After getting approval from the management for conducting the online course, brochure was circulated to other college students, faculties and to research scholars. Registration time was provided from 11<sup>th</sup> May till 18<sup>th</sup> May. 1078 were registered for this course and this course was conducted for the free of cost. Course timing was been planned and executed to complete the course daily with 6 hours and totally 30 hours. Finally 631 were qualified with good score and have received E- certificates.

Course Duration: 60 Hours.

Start Date: 19.05.2020

Number of Student Attended: 1078

Date of Exam: 19<sup>th</sup> May 2020 to 23<sup>rd</sup> May 2020

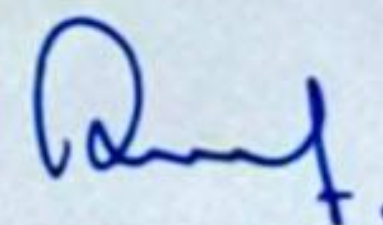

Number of Student Passed: 631

**Feedback Analysis:** The feedback was collected and analyzed by the Coordinator. In general, positive feedback was received, majority of the respondents has expressed their satisfied level towards the course materials and information which was shared related to research.

**E- WASTE MANAGEMENT SYSTEM**

During the recent decades the world has seen ongoing economic & Technological development which resulted in huge volumes of Electrical & Electronic wastes. Therefore in order to give awareness for the student community, a course on E-Waste was conducted. The duration of the course was for four weeks from 06.11.2020 to 07.12.2020 for III year ECS Students via Google meet online platform. The course was conducted for 40 hours. The course was handled by the Internal Faculty Members of ECS Department. Mrs S. Shantha, ECS was the course coordinator of the program. The resource person for this course was, Mrs. V. Savithri , ECS department.

The students were evaluated from the assignments and tests conducted. Three assignments were given to the students. Their performance was evaluated by online quiz. Totally 28 students were enrolled for the course, out of which 13 students successfully completed the course.

**Feedback Analysis** From this course the students were able to understand the serious environmental & health issues due to E-Wastes.

**HOUSE HOLD APPLIANCES**

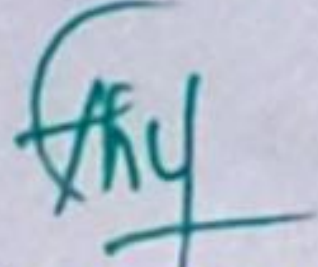

Today's homes are equipped with many appliances to ease our daily lives. This course takes you through the operating principles, advantages, disadvantages, maintenance and repair of the home appliances. This course examines commonly used Electric Devices such as Coffee maker, Washing machine, Electric Iron Box, Electric Geyser etc. The duration of the course "House Hold Appliances" was 40 hours from 01/09/2021 to 24/09/2021. The course includes the fundamentals of Active & Passive components like Transistor, logic gates, Resistors, variable resistors, Capacitors, Inductors and the application of these components in "House Hold Appliances". Around 55 students registered for this course.

The students were given two assignments and one test, based on which certificates were issued to all students.

The students learned to safely operate, maintain and repair the home appliances through this course. Also the students learnt about the increased House hold electricity consumption significantly

DEPARTMENT OF B.COM GENERAL, SHIFT 2

**ADD-ON COURSE REPORT**

TOPIC: **OFFICE AUTOMATION**

RESOURCE PERSON: Dr. A. HENCY JULIET

DATE: 06/12/2021

MCA., M.PHIL, M.Sc (Phy)., B.Ed., PGDCA., SET.

The Department of Commerce has taken initiatives to conduct an add-on course on the topic Office Automation started from 9<sup>th</sup> October 2021. Around 85 students from 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> year have joined and got benefitted.

The course duration was 30 hours. Classes were conducted from 10 am to 12 noon, 2 hours per day. The Course conducted at free of cost for the benefit of the department students. Dr. A. Hency Juliet, Head of Department from BCA Shift I, was the course instructor. She took the classes in Virtual mode through Google Meet.

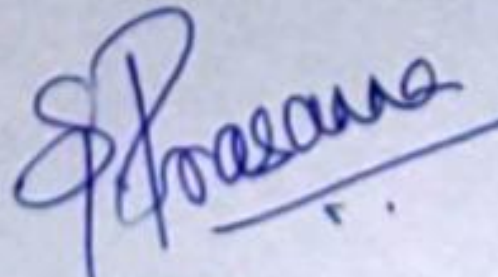

At the end of the Course, Examination was conducted and assessment procedure done through grade method. The certificates were distributed to the Students who have completed the course. Around 60 students completed the course successfully.

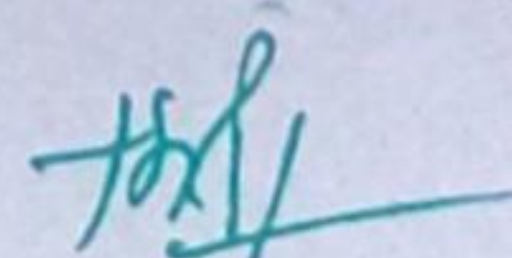

The students who got benefitted by this add on course gave a positive feedback about credit which they gained by learning the full details of Ms-word, Ms-excel and Ms-power point presentation. After this class they felt easy to participate in various competitions relating to ppt presentation, preparing resumes of their own.

Students were awarded by grades who scored (91% and above) as O grade, (>81 to <=90) as A grade, (>61 to <= 80) as B grade, (>51 to <= 60) as C grade, (>40 to <=50) as D grade.

The convenor and co-convenor of this add on course were Ms. S. Anusha Banu, and Mr. S. Ranjith, Assistant Professors, Department of Commerce, Shift II.

**“PIC AND ARM BASED MICROCONTROLLER”**

ARM processors are widely used in customer electronic devices such as smart phones, tablets, multimedia players and other mobile devices, such as wearables. Because of their reduced instruction set, they need fewer transistors, which enable a smaller die size of the integrated circuitry (IC). The ARM processors, smaller size reduced difficulty and lower power expenditure makes them suitable for increasingly miniaturized devices. The topics covered in the course were introduction to various programming languages like C, C++, Java, Python etc. Also gave a detailed explanation on PIC architecture, UART, types of communication, types of ADC, timers etc. The course also covers working of ARM based products and development tools. At the end of the course students' performance were evaluated through examination and certificate were distributed to the students by Mr. Venkatesan ( partner PROLIFIC System ) on 30/10/2021.

**Feedback Analysis :** The training given to the students were helpful on the programming of microcontrollers by understanding the concepts theoretically as well as practically.

**DATE OF EXAMINATION :** 30/10/2021.

ADDON COURSE – SKILLATHON 2021

**Report of the Coordinator**

Department of Computer Science, Shift II introduced the add on course, 'Skillathon 2021' hosted by ICT Academy in partnership with UiPath Academic Alliance to the students of our college. This course delivers the contents of Robotic Process Automation(RPA). With low-code/no-code gaining traction, it is undoubted that RPA literacy will become a default skill looked into every professional. RPA literacy is the ability to understand, work with, and deploy basic robots independently. This skill empowers learners to make recommendations to identify processes to be automated.

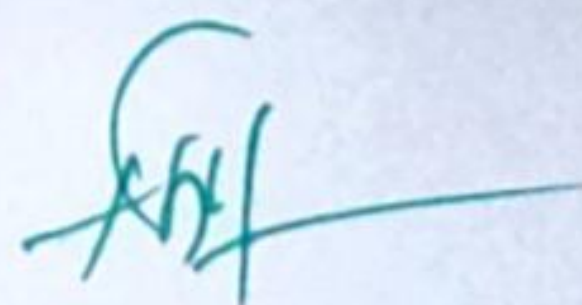

Around 94 students from various Departments of both shifts I & II registered for this self-learning course. Flexible time and deadline for this course motivated many students to complete this course successfully. Round one of this course commenced on 15-Dec-2021 and ends on 20-Dec-21 whereas the Round two commenced on 21-Dec-2021 and Ends on 31-Dec-2021.

Feedback Analysis - 'Skill-A-Thon 2021' provided insight into how organizations adopt RPA and Artificial intelligence (AI) technologies such as machine learning, virtual agents, natural language processing, and computer vision. Students were excited and reported a very positive feedback.

ADD ON COURSE – **LEARNATHON 2021**

**Report of the Coordinator**

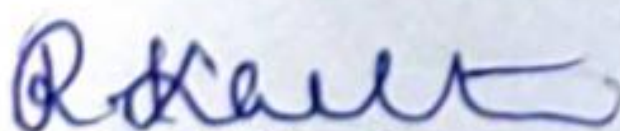

Department of Computer Science, Shift II has taken initiative to empower the youth to succeed in the future of work and introduced 'LEARNATHON 2021' launched by ICT Academy - a self-learning initiative for higher education students to build their foundational IT skills online. It Comprises various foundational level courses from different tech majors like Cisco, Automation Anywhere, Microsoft, Qlik, Celonis, Prime5c and Mathworks. 82 Students from various Departments of both Shift I and Shift II registered and earned the certificates from global tech majors for free of costs through the membership the college has afforded.

Course Duration: It varies from one to another certification with a maximum of 30 Hours duration for Cisco's Cyber Security Essentials.

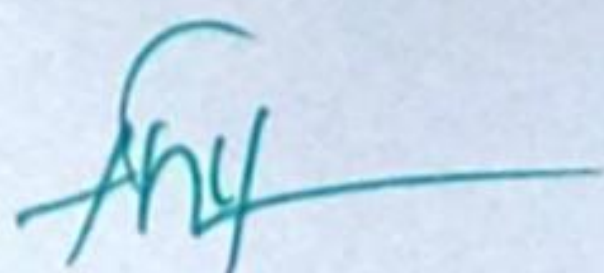

Course Commencement Date : 15-Jul-2021

Course Outcome : Exposure to the Industry 4.0 is accomplished which helps the students in choosing a specific platform to enhance and flourish further. Hence the students are more confident to acquire jobs in IT Industry.

Feedback Analysis: Students responded positively about the program and requested to continue this every semester.
