Department Of Computer Applications
cordially invites you to the

One Day National Seminar
on

Recent Trends in Computational Research

Date : 25th January 2019 @ 9 AM
Venue : Mar Gregorios Conference Hall

About College

MAR GREGORIOS COLLEGE OF ARTS & SCIENCE is a model Christian minority educational institution established in the city of Chennai with an eight-acre campus named after Most Rev.BENEDICT MAR GREGORIOS, LATE ARCH BISHOP of Thiruvanandapuram Arch Diocese managed by the Malankara Syrian Catholic Management (MSCM). This management has rendered a remarkable service in the field of Medicine, Engineering, School and Collegiate Education all over India since 1930.

The college offers 12 degree programs and 3 post-graduate programs, functioning in two shifts. Shift-I offers under graduate courses in Computer Application, Computer Science, Electronics and Communication Science, Mathematics, Visual Communication, Business Administration, Commerce (Accounting & Finance), Commerce (Corporate Secretaryship), Commerce (General), English and Tamil Literature, and Post Graduate Courses in Computer Science, Social Work and Commerce (General). Shift-II offers under graduation courses in Computer Application, Computer Science, Business Administration, Commerce (Computer Application), Commerce (Corporate Secretaryship) and Commerce (General).

About Department

The Department of Computer Applications is one of the pioneering Departments of the institution. It is committed to impart quality education in the sub-fields of IT, a field growing leaps and bounds. It is dedicated to the mission of inculcating value-based, socially committed professionalism to the cause of overall development of students and society.

The students are provided with ample opportunities to improve their organisational skills and group dynamics. They are motivated to handle seminars and to participate in group discussions.

Apart from emphasizing on consistent and good academic performance, the department encourages participation in the co-curricular and extra-curricular activities to bring out the latent talents in its students.

Also we proudly announce that some of our students placed in top companies like Wipro, TCS, Infosys through campus placement.

Seminar Theme

Computational Research is a broad multidisciplinary and integrative area including a variety of applications in Science, Engineering, Numerical Methods, Applied Mathematics, and Computer Science disciplines.

The new areas that has been drawing the attention of researchers in the field of Computer Science recently are Artificial Intelligence, Cyber Security, Bio-Informatics, Cloud Computing and Data Science including Big Data analytics and many others. It is with no doubt that over the years, the evolvement of Computer Science and Information Technology will benefit man in many ways.

Many researcher discuss the increasing demands of Computer Science and Information Technology not only in industries but also in Academia. To know about this scenario, this seminar provides you a platform for discussing new research topics and the basic mathematical models that are utilised for computer science research in a deep sense. Only few of the emerging trends in Computer Science need deliberation if you are into research or want to create something revolutionary, useful and innovative. The main goal of this seminar will give you a clear-cut idea about the research areas and how to write your thesis intellectually with state-of-art analysis.

Seminar Sessions

- ➢ Session 1 : **Recent Research Areas in Computer Science,**
- ➢ Session 2 : **Mathematical Models for Research,**
- ➢ Session 3 : **Intellectual Writing of Thesis.**

Resource Person

Dr. T.Velmurugan
