Lenovo Methods for Good Publications for Arts Faculties
1. For Computer Science: You can collaborate with Science Researcher to work on computation of data's. For eg. In Chemistry – Density Functional Theory Calculation, Designing New formulas.
2. For Literatures: One can involve in translating entire manuscript into other languages like in Tamil, Hindu to reach common public as well.
3. For Commerce: Can discuss with Business people/ convert their experiences into data's.
4. Always prefer peer-reviewed journals
5. Few important subject specific journals do possess less impact factors
6. Not every time: High Impact factor equals to best researcher.
7. Don't forget to acknowledge every author who have made significant contribution the particular article.
